EDUCATION

Software Engineering Intensive Certificate of Completion, General Assembly

07/2020 - 10/2020

New York, NY

The Ohio State University Bachelor of Arts, English

09/2009 - 06/2011

Columbus, OH

EXPERIENCE

Software Engineer The Coop

10/2020 - Present

New York, NY

An early stage start up founded to help career changers accelerate their transition in to the Engineering and Design fields by providing them real world experience and mentorship, building projects and working in Agile teams, and delivering on deadlines

Achievements/Tasks

- Designed, proposed, and led initiative to create User Rolodex application that leveraged *React.js*, *GraphQL* and *Apollo* to create a remote learning, education and mentorship program that also stored user information
- Collaborate with product manager and design team to translate *Figma* files for new features and prototypes into full stack products from ideation to production
- Manage *deployment* and *version control* for Coop products by reviewing merges to protected branches, and linking repositories to *CI/CD* pipelines which minimizes production errors by 90 percent
- Prepare and give "lightning talks": presentations on technologies in Coop stacks and projects including *Chromium* browsers, *RESTful APIs*, *React.js* and *Vue.js*
- Contribute to documentation for Coop products and internal procedures, building the culture of a new start up environment

Software Engineering Fellow General Assembly

07/2020 - 10/2020

New York, NY

Achievements/Tasks

- Trained in a variety of modern programming technologies and languages during a 12-week career accelerator, encompassing full stack programming fundamentals and learning how to pick up new technologies quickly
- Worked on projects both individually and as part of a team, while using *React.js*, *Express*, *Javascript*, *Python*, *Django*, and *Node.js* as well as *Git* version control, holding sprint planning meetings and managing a kanban board
- Designed, coded, debugged and deployed full stack single page applications in a number of languages, frameworks, and libraries

Expeditor Per Se

10/2017 - 03/2020

New York, NY

Achievements/Tasks

- Upheld the legacy of 3-Michelin Star restaurant in New York City while leading a team of hospitality professionals through nightly dinner services and private dining events
- Organized and planned with chefs, sommeliers, servers and managers to coordinate effective in-the-moment and long-term solutions
- Trained new employees in the SOPs, dishes, china, and culture in a fast-paced, constantly changing, professional environment
